

CIRCULAR ECONOMY IN THE 2021-2027 ERDF PROGRAMMING

JOINT WORKSHOP
AND STUDY VISIT
WARMIAN-MASURIAN
VOIVODESHIP
IN LOMBARDY

DAY 1 - OCTOBER 3RD

9.30 THE ERDF REGIONAL PROGRAMMES AND THE REGIONAL CIRCULAR ECONOMY POLICIES
PALAZZO LOMBARDIA, PIAZZA CITTÀ DI LOMBARDIA 1, MILAN
ROOM "OPPORTUNITÀ", 13TH FLOOR, ENTRANCE FROM GATE N1

Institutional opening

Barbara Frascchetta, on behalf of **Giorgio Maione**
Councilor for Environment and Climate, Lombardy Region

ERDF Regional Programmes

Management Authorities, Lombardy Region and Warmian–Masurian Voivodeship

OS 2.6 in Lombardy

- Regional Observatory on Circular Economy, inert waste marketplace
Alessandro Dacomo, Lombardy Region
- The value chains/ecodesign of textiles
Samuele Abagnato, Milan Polytechnic University
- Environmental education: LIFE RES2 (Resilient system for the recognition of Energy Skills) and ECOLE (Eco Industrial Park Network for the Alpine Regions Leveraging Smart and Circular Economy)
Stefania Fontana, Fondazione Lombardia per l'Ambiente

13.00 LUNCH BREAK Caffè Batticor • Via Gustavo Fara 41, Milan

14.00 VISIT (Meeting Point Palazzo Lombardia, Via Restelli - Via Galvani)

CAP Holding (arrival at 15.00, duration 90')

Wastewater & Sewage Sludge Management, Biogas Recovery • Via Eugenio Villoresi, Bresso (MI)

Food Hub Isola and AMSA (arrival at 17.30, duration 90')

Food Waste Prevention, Biowaste Collection • Via Borsieri, Milano

19.30 SOCIAL DINNER Il Santa • Via Melchiorre Gioia 37, Milano

DAY 2 - OCTOBER 4TH

8:30 VISIT (Meeting Point at Palazzo Lombardia, Via Restelli-Via Galvani)

Social Cooperative CAUTO (arrival at 10.00, duration 60')
Waste Collection, Repair & Reuse, Food Waste Prevention

Gruppo Gatti (arrival 11.30, duration 60')
Inert Waste Vs. Raw Materials • Via IV Novembre 29, Lograto (BS)

13.00 LUNCH Trattoria Antica Stella • Via XXIV Maggio 21, Longhena (BS)

15.00 Montello Plastics
Plastic And Biowaste Recovery (duration 90') • Via Fabio Filzi 5, Montello (BG)

18.00 RETURN TO MILAN CENTRAL RAILWAY STATION
Afterwards, social dinner hosted by the Warmian-Masurian Voivodeship

PARTNER

PR FESR 2021-2027

The ERDF RP 21-27 in Lombardy provides 2 billion euros to promote economic recovery and competitiveness through three main objectives.

"A more competitive and smarter Europe", 1.1 billion euros to support research, innovation and technological transfer, together with the attraction of investments, internationalization and strengthening of skills.

"A greener Europe", 642 million euros for sustainable development through the conscious use of energy and renewable resources, investing in new technologies and circular economy principles in public and private buildings as well as sustainable mobility.

"A Europe closer to its citizens", 207 million euros counteracting social fragility, in synergy with the PR ESF+, through urban regeneration and social inclusion actions, against fragility in urban areas and depopulation in internal areas.

FOOD POLICY/FOOD HUB ISOLA

First pilot project of the "Zero Waste" memorandum of understanding between the Municipality of Milan, Assolombarda (Industrial Association) and the Polytechnic of Milan, managed by the ong Banco Alimentare, it promotes the reduction of food waste in favor of people in need by collecting unsold fresh from supermarkets and cooked food not served by company canteens, which, which non-profit organisations can use for canteen services or parcel distribution services or parcel distribution.

CAP HOLDING BRESSO NIGUARDA

With a surface area of 142,473.22 m², the Bresso-Niguarda plant represents one of the most important and innovative purifiers not only in Lombardy, but in the entire country, both for the technologies used and for the ongoing testing activities.

At the plant, CAP Group has started the extraction of biomethane from sewage waste: this is a revolutionary project that aims to transform the group's purifiers into true bio-refineries, capable of generating green fuel from wastewater.

CAUTO SOCIAL COOPERATIVE

Social Cooperative for employment integration, born from the associative experience in the 80s as a social enterprise for the recovery of food goods in the Brescia market, which adheres to the social industrial center of the Municipality of Brescia. It now offers consulting services like community bank, social pantry and environmental training; as well as operational services like second hand stores, medical aids, thical collection of used clothes.

GRUPPO GATTI

Borned in the early 1960s in the municipality of Berlingo (Bs) as an extraction and marketing enterprise of inert material, sand and gravel, developed also with the pre-mixing of concrete and earthmoving, over time, the company has been able to create a solid production plant, carving out increasingly significant spaces in the province of Brescia and surrounding areas. In carrying out its activities, it focuses on issues related to respect for the environment, safety and health at work, professional training and continuous improvement.

MONTELLO

The Montello plant in Bergamo (450,000 m²) recycles 200,000 tons/year of post-consumer plastic packaging, from which are obtained new products, and 600,000 tons/year of OFMSW organic fraction coming from separate waste collection, from which is obtained biogas -used to produce both electrical and thermal energy- and biomethane. At the same time, it recovers carbon dioxide CO₂ for industrial technical use and produces a high quality organic fertiliser.
